

Alternate location for September 27, 2009 meeting of HGCNY:

Leave the Library (building 4 on the map) and walk to **Coyne Science Center (building 2)**. Alternatively, you can (on a Sunday) park behind the Science Center (building is shaped like a shallow 'U'). You can access the lot behind Science Center either from the NE entrance on Springfield Rd, or from the main (front; SE) entrance of campus (see map).

Note that the Science Center is built on a hill. Depending on which door you use to enter the building, you might come in on the first, second or third floors. Check a doorway for a number once you enter to be sure where you are. The first digit of the room number is the floor (e.g. 119 is on the first floor). We will be meeting in **SC 227**, on the second floor. If you go in the front entrance of the building (see walkway to building next to letter F), go down a ½ flight of stairs to reach the second floor. Turn right, and SC 227 will be the last classroom doorway on your left before the elevator.
